

Space Leadership, Business, and Policy

Harness the power of the booming space economy. This program, taught by globally recognized space leaders and distinguished faculty, equips you with the knowledge and skills to discover growth opportunities in the rapidly expanding space industry. Learn from experts and practitioners, access valuable learning materials, and network with fellow participants.

\$6,500 | 5 days | in person

Program benefits

- Explore the space economy, including terminology, sectors, history, future opportunities, and risks.
- Apply and adapt entrepreneurial models and financing, explore related industries, and analyze investment opportunities.
- Identify the challenges and opportunities space brings to the environment and explore sustainable space solutions.
- Define space policy and leadership skills in the context of national security and economic development.
